Swisher Chemical Distribution Station

The Swisher Chemical Distribution Station automatically adds water to concentrated chemicals, effortlessly ensuring that chemicals are diluted to the proper strength. Using chemicals at the correct concentration means reduced risk of chemical injury and fewer refills, saving the customer money.

A simple push-button design allows efficiency when filling mop buckets, spray bottles, and sinks. Easy installation and tool-less maintenance make this system suitable for any work environment.

U.S. Linen and Uniform carries several chemicals which are compatible with the Swisher Chemical Distribution Station, appearing on pages 12 and 13 of this catalog.

For more information on chemicals and their dispensers, please contact your U.S. Linen and Uniform representative.

CLEANERS AND DISINFECTANTS
