HD = High Density
LD = Low Density

SinkMaster Chemical Dispensing System

SinkMaster dispensers meet the need for filling large sinks with detergent and/or sanitizer in food service applications.

Hydro's SinkMaster allows you to conveniently fill large sinks with properly diluted solutions of detergent and/or sanitizer regardless of the size of the sink or how much solution is dispensed. No more guesswork on how much detergent or sanitizer to add or worry about the training of new employees due to the high turnover in food service.

- Available in one or two product versions
- Time and labor savings – ball valve operation allows use without holding or locking a button
- Better chemical performance – consistent correct dilution
- Time and labor savings – solutions are prepared accurately with reduced preparation time

AccuMax Chemical Dispensing Systems

The AccuMax is the first in Hydro Systems' new product line of chemical dispensers. It's a culmination of 30+ years of industry expertise and all the best features Hydro Systems has to offer. The AccuMax is versatile and durable, featuring patented AccuPro Technology for dilution control.

With AccuPro Technology, you can eliminate dilution variance and ensure your customers are never using too much or too little chemical. You will always be dispensing just the right amount!

With all your favorite features, the AccuMax includes:

- 1-5 GPM flow rate options
- New, expansive workspace to easily route tubes
- Easy, tool-free maintenance
- E-Gap and AirGap options to satisfy regulatory standards
- Same mounting brackets as Hydro Systems' AccuPro and AccuDose
