Our Family Legacy – 125 Years

In 1901, laundry and dry cleaning entrepreneur, John Stoller, started working in a tailor shop in Portland. One of the first things he did was burn a hole in a pair of pants he was pressing. Luckily, it got better from there. In April of 1901, he moved to Walla Walla to work doing alterations and pressing. Only 3 months later, he purchased the business. Thus, the Stoller Cleaning Club was born, which later became the Pantorium.

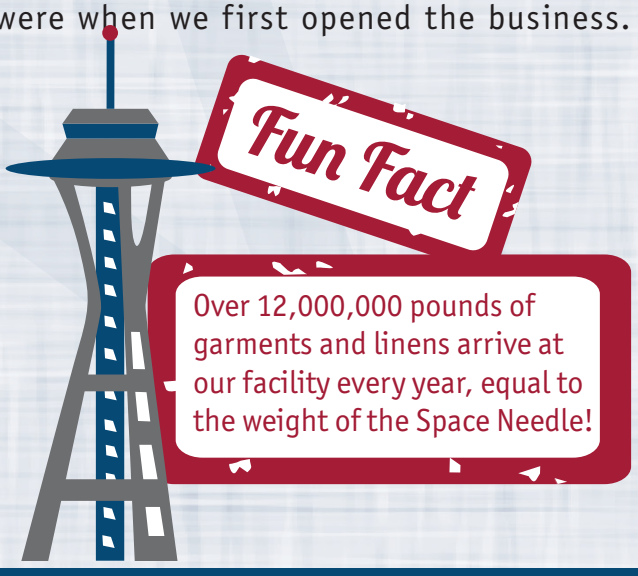

In the late 1910's, one of his sons, Harvey Stoller started working in the business. He would drive a horse and wagon to all the farms around Walla Walla picking up and delivering laundry. In the 1930's Harvey went to dry cleaning school in Allentown, PA and then worked on the East Coast for several years before returning to Walla Walla.

In the early 1940's Harvey Stoller saw an opportunity in the dusty, bustling boom town of Richland, WA. Harvey applied for the federal contract to provide laundry and dry cleaning service to the Hanford workers. Harvey's 30 years of experience and his innovations in running the Pantorium gave him the edge to win the federal contract. On August 14, 1944 he opened Richland Laundry & Dry Cleaning, one of the first privately-owned businesses in Richland, which later became U.S. Linen & Uniform.

Since then, we have continued to expand our service area and grow. Today, our workforce consists of 150 people, we have over 3,500 customers, and we serve an area spanning about 75,000 square miles. We've invested heavily in machinery and technology – we have washers that can handle up to 900 pounds of laundry at a time.

But some things haven't changed in 125 years. U.S. Linen & Uniform is still a family business. We now have our 4th and 5th generation of family members in the laundry business running our business. John Stoller's great grandson, Rick Snyder, his son, Drew Snyder, and his son in law, Zach Mayfield are now running the business. Our core values – commitment to service and quality – are as solid now as they were when we first opened the business.

Take the Star Service Challenge®

If you answer YES to any of these questions, call us now for your free consultation.

- Are you unhappy with your current supplier surprising you with extra charges? YES ○ NO ○
- Are you annoyed with your garments being returned unrepaired? YES ○ NO ○
- Are you troubled that the amount of towels or aprons you receive each week get fewer and fewer? YES ○ NO ○
- Are you frustrated when you run out of product in the evening or on weekends and can't get service? YES ○ NO ○
- Are you concerned with your prices increasing multiple times throughout the year? YES ○ NO ○
- Are you fed up with frequently being short garments? YES ○ NO ○

We've created solutions that our customers love!

Fun Fact

Our routes cover 75,000 square miles and travel 500,000 miles per year, enough to travel to the moon and back.

Star Tracking System®

Our exclusive Star Tracking System® utilizes the most advanced tracking technology in our industry, Radio Frequency Identification (RFID) chips. The Star Tracking System® uses a dual identification system, RFID and the bar codes that we have used for over 30 years. The dual system ensures that we can always identify the garment.

The Star Tracking System® tracks each garment through our entire process and uses computer aided sorting which puts the garments in perfect route, account, and wearer order. All garments are inspected and any repairs are entered into our system to ensure all repairs are completed. Upon completion of the cleaning, sorting, inspecting, and mending our state-of-the-art bundle scanner ensures that each wearer's order is 100% accurate.

Fun Fact

We process enough towels to soak up an entire Olympic sized swimming pool.

• Other Guys • **U.S. Linen & Uniform**

Mistakes happen. When handling non-garment items, like towels, napkins, and aprons, it's all too easy to misplace or miscount an item. The other guys replace the number of items based on what they receive, so every miscount or lost item means that much less will be delivered in the future. U.S. Linen & Uniform does things differently, making sure you always have a full inventory of what you need, even when mistakes happen.

How Our

Linen & Uniform Programs Work

1 A professional sales representative helps you select uniforms, linens, towels, mats, mops and other textile products that complement your brand. These products keep your business and employees looking their best.

2 A few weeks later, we deliver all the items you need to keep your business and employees looking great.

3 With the correct inventory, you will have enough uniforms and other products to last until your next delivery.

4 On future delivery days, our Customer Service Representative delivers the following:

A. All the clean uniforms we picked up the previous week.
B. All the aprons and tablecloths required (based on the previous week's pickup).
C. Restocks the towel and napkin inventories to their correct inventory level.
D. Change any mats or mops for that day.

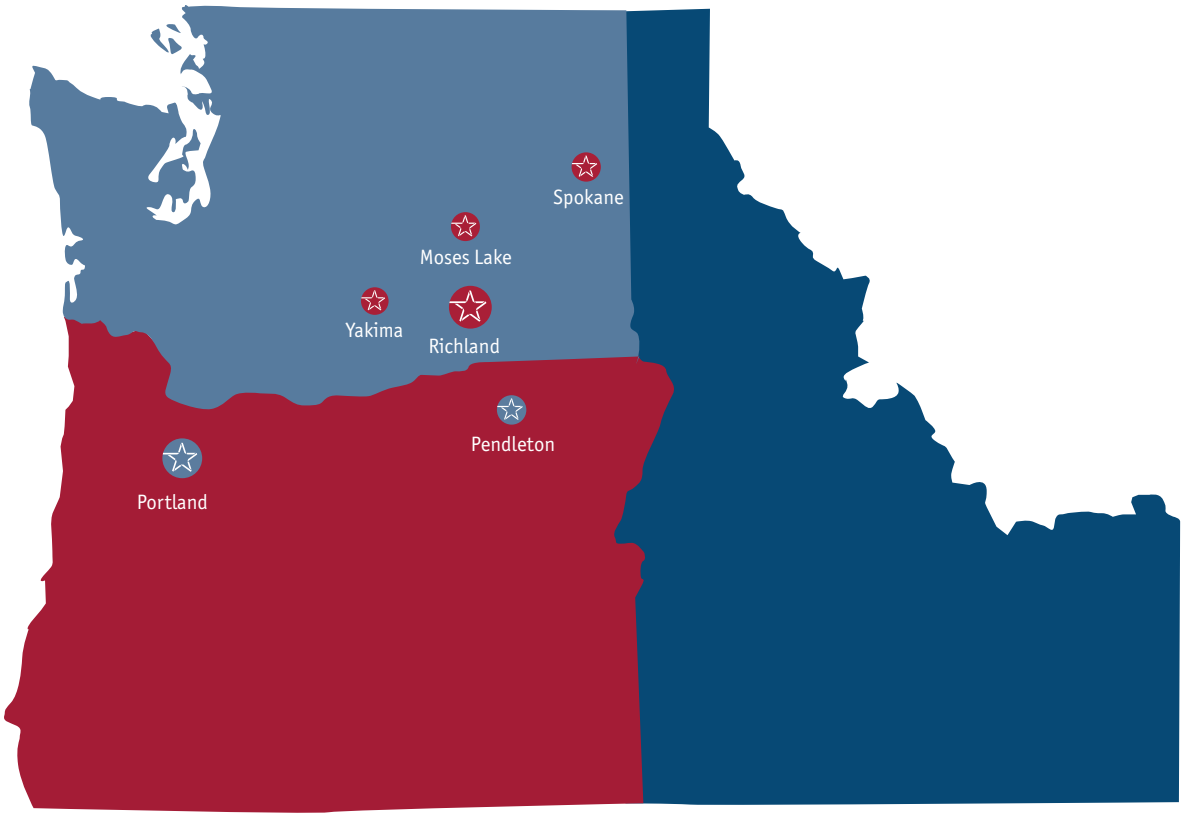

5 On those same delivery days, our Customer Service Representatives pick up all the soiled items.

6 All uniform repairs can be requested using our Star Garment Repair® app available on the Google Play Store or the Apple App Store.

7 Our Star Tracking System® uses RFID technology to guarantee that all garments are returned to you on time with 100% accuracy.

8 With our No Surprises Billing & Inventory Plan®, never experience a shortage or miscount on your towels or linens.
